

Price Transparency or How we Charge

Wills

For a straightforward Will we charge £200 plus VAT (£240) and for Wills for a couple, which are similar, we charge £300 plus VAT (£360).

The typical stages in connection with the making of a Will are: -

- Taking initial instructions for the Will
- Drafting the Will
- Obtaining your approval of the Will
- Meeting you to sign the Will.

Some staff have formal qualifications and some simply many years of experience. Full details of the people involved in your case will be set out in our retainer documents at the outset of the transaction, or alternative, please see our Probate team page. The work we will carry out for you includes all work necessary from the beginning to the end i.e. from the initial instructions to completion of your Will. The average timescale is 1-3 weeks depending upon your requirements.

Advice on Inheritance Tax is charged separately. Complex Wills are charged on the time spent. A Will involving substantial or complex assets might cost £1,000 plus VAT (£1,200)
